

CHRISTIANE MAY-ROPERS, MD

MEDICAL PRACTITIONER & HEALTH EDUCATIONALIST

TRAUMA:

NEW INSIGHTS FOR WORKING WITH TRAUMA

Dr Christiane May-Ropers has worked with trauma victims for many years. It is with joy that she shares her experience and medical knowledge in promoting new and creative ways of working with trauma of all kinds - for people of all ages and situations.

Christiane is committed to the vision of the individual's interconnectedness within and with the whole cosmos. Most of all, Christiane's deep desire is to empower people; to show them how they can help themselves.

Dr Christiane May-Ropers' Introductory Talk will be informative and useful for medical professionals as well as the general public who have themselves been traumatised, or, who know of and work with others who have been traumatised in any way. Christiane's last night in Perth provides an opportunity for all to learn more about this important subject, which is of concern to all.

~~Venue: "A Place To Just Be," 4a Preston Point Road, East Fremantle (parking and access just behind the Church) . Date: Wednesday 17 September. Time: 7.00 p.m. – 9.30 p.m.~~
